

User Type	Functional Requirement (Epic)	USN	User Story / Task	Acceptance Criteria	Priority	Release
			my selected category so that I see valid options.	filter options dynamically.		
	Ticket Protection	USN-3	As an employee, I want the ticket number field to be read-only so that tracking references remain consistent.	Number field is uneditable by the user.	Medium	Sprint-1
	Status Tracking	USN-4	As an employee, I can view my active ticket status via the Portal Right Widget so I stay updated on resolution.	Right widget displays live ticket status updates.	High	Sprint-2
Support Desk Executive	Structured Data Intake	USN-5	As a support agent, I want issue records to auto-populate in the custom table so I receive complete information.	Record created instantly in custom table upon submit.	High	Sprint-1
	Issue Management	USN-6	As a support agent, I can update ticket states and assign team members to resolve employee issues.	Backend agent interface allows status/assignee updates.	Medium	Sprint-2
Administrator	Scoped Application Governance	USN-7	As an admin, I want all configurations maintained within scope x_1959081_emp_issue for clean deployment.	All artifacts are isolated within application scope.	Low	Sprint-1
